thrivePCI

A FICTIONAL PRACTICE

Make the dependency easy to resolve.

Use a made-up example. Keep client evidence out.

Waiting work

What work cannot move forward yet?

Dependency

What must happen first?

Resolving owner

Who has accepted the resolving work?

Unblock condition

What will confirm that work can resume?

Return point

When or why will waiting work return?

Waiting is not a waiver.

Follow the normal route.

Try the free public guide.
