thrivePCI

AFTER LAUNCH / MONITORING

Notice early. Respond clearly.

Agree what a useful observation will show.

Keep everyday controls and ownership in place.

Observation window

What period and signals need closer attention?

Accepted observers

Who watches, responds and covers an absence?

Payment reconciliation

Do payment and order states tell the same story?

Response decisions

Which signal needs investigation or escalation?

Continuing ownership

Who accepts open work after this window ends?

Build a steady habit.
